Every detail matters. Because every patient matters.

iCenter™

Make informed decisions and optimize your asset performance.

A secure web-based tool that allows quick access to up-to-date operational and performance data on your assets:

- Optimize equipment utilization and uptime
- Enable planned maintenance schedule
- Manage equipment life cycle for greater ROI
- Control costs
- Improve capital planning

With iCenter™, the data you need is delivered right to your desktop. Assets can even be viewed from multiple facilities on the same screen:

- Make effective decisions about inventory allocation, equipment acquisition, and staffing through instant access to iCenter™ Asset Utilization.
- iCenter™ Asset Maintenance application delivers powerful features that enable instant access to critical service informations and functionality.
- Gather information on equipment usage, performance, maintenance expenses, and end-of-life to help evaluate your options through iCenter™ Capital Planning.

Point.
Click.
Know.
Plan.

iCenter™ is designed to meet the diverse needs of those who operate and manage critical assets, including technologists, department supervisors, and executives.

From planned maintenance schedules to utilization reports, your staff has quick and easy access to critical information.

- **Available 24 hours per day, 365 days per year**
- **Single sign-on security for information access control**
- **Remote assistance via Contact GE**

Closer to you. Closer to your needs.
